Does Expedia Offer Senior Discounts on Hotels?

If you're asking **"Does Expedia offer senior discounts on hotels?"**, the answer is **not directly**. Expedia does not have a dedicated "senior discount" filter or program. Instead, it works as a travel marketplace that shows prices set by hotels and partners.

That said, seniors can still find great hotel deals because:

- Some hotels include senior rates in their listings
- Discounts are often built into general pricing
- Promotions are available to all users, including seniors

For personalized assistance, you can call ☎ +1-877-622-0707 to check available hotel deals.

How Expedia Hotel Discounts Work

Expedia does not control hotel pricing directly. Instead:

- Hotels set their own rates
- Expedia displays those deals in one place
- Discounts change based on availability and demand

Because of this, **senior discounts are not always labeled clearly**, even if they exist.

What This Means for Seniors:

- No single "senior discount button"
- Savings depend on hotel policies
- Deals are often included in regular pricing
